# 2D & 3D INSTALLATION

SYRO-Bricks innovatively turned traditional 2D installation into 3D structure with meticulously engineered flexible connectors and fixtures

# GET CREATIVE WITH SYRO BRICKS

Create your own unique layout from a cute puppy to a tower and lots more possibilities.  
Your creativity is encouraged

# Create. Connect. Glow

SYRO-Bricks is a modular hexagon light system that brings your space to life with shape and color. Snap panels together in endless 2D or 3D layouts — from wall art to sculptural designs — and enjoy vibrant lighting effects, color transitions, and music sync. With app and remote control, SYRO-Bricks is perfect for desktops, walls, and creative environments. It's lighting that you don't just see — you build.

Module Dimensions	
a	6.29cm / 2.48in
b	7.25cm / 2.85in
c	2.4cm / 0.94in

Color: RGB 16 million colors

Connectivity: BT

Working Voltage: 5V/2A

Max Panels Per PSU  $\approx$  100

Max Panels Per Controller on a route: 300

Materials: Fireproof Polycarbonate & ABS

Operating Temperature:  $-5\sim 45^{\circ}\text{C}$

Life Span: More than 20,000 hours

## About us

LinkedSparx is a LED lighting technology company that strives to push the boundaries of smart LED technology and transform ordinary home lighting experiences into more innovative ones. Smart products should provide personalized options for different types of users, while effortlessly creating an enjoyable experience that suits their needs. With this philosophy, we constantly explore the balance between the application of new technologies and user experience, and have launched a series of smart holiday decorative lights, desktop ambient lights, and other products.
