FROM 2D TO 3D: THE EVOLUTION OF AMBIENCE LIGHTING

This is not only a tool for artistic creation, but also a leap in technology, which can make your works three-dimensional, more vivid, and full. Whether it's children's creations or commercial scenarios, The Box can make the works more eye-catching with its 3D assembly function.

LIGHT UP YOUR WORDS

With its 2D and 3D stitching capabilities, The Box has also thoughtfully designed a variety of dedicated character slides, encompassing letters, numbers, and symbols, as well as geometric shapes. These unique slides can be inserted into The Box, empowering you to construct personalized English words, phrases, or alluring graphics.
